

## CC Drop Cable Cutters

- **High-carbon forged-steel blades** hold their sharp edge, while electronic coating prevents rust.
- **Textured handles** provide a comfortable, firm grip.

### DESCRIPTION

Designed specifically for drop applications, these diagonal cable cutters and lineman's pliers easily cut through the steel center conductor on all drop cables.

### APPLICATIONS

CC cable cutters work on all RG-6, -59, -7, and -11 drop cables.

### SPECIAL FEATURES

#### Laser-hardened Steel Blades:

Precision-ground for top performance, the high-carbon forged-steel blades maintain their sharp edge. An electronic coating prevents rust, even after exposure to the elements.

## CC Drop Cable Cutters

### SPECIAL FEATURES *(continued)*

#### **Contoured Handles:**

The easy-to-open handles are contoured to fit comfortably in either hand.

#### **Cushioned Grips:**

The brightly colored cushioned grips ensure a firm grasp and will not slip off during use. They also make the tool easy to find.
